Service Work or repairs done at a customer's request or to repair damage will be charged the cost of labor and materials required. Charges are assessed to the person requesting service or to the party responsible for damages.

- 1. Extra trips to restore service where the water is turned off for nonpayment result in a service call charge being added to the customer's account.
- 2. The tampering chart will be assigned to the account holder for the service where there is evidence of tampering.

Adopted by Board Action: December 21, 2017
