A PROFESSIONAL LIMITED LIABILITY COMPANY

Communication with Those Charged with Governance

To the Board of Directors Halifax County Service Authority

We have audited the financial statements of the business-type activities for the year ended June 30, 2010. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated July 23, 2010. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Halifax County Service Authority ("Authority") are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2010. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the Authority's financial statements was:

Management's estimate of the depreciable lives of the capital assets is based on industry standards and actual historical information. We evaluated the key factors and assumptions used to develop the depreciable lives in determining that it is reasonable in relation to the financial statements taken as a whole.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated November 29, 2010.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the Board of Directors and management of Halifax County Service Authority and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report

To the Board of Directors
Halifax County Service Authority
Halifax, Virginia

We have audited the accompanying statement of net assets of the Halifax County Service Authority as of June 30, 2010 and June 30, 2009, and the related statements of revenues, expenses and changes in net assets, and cash flows for the years then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Halifax County Service Authority at June 30, 2010 and 2009, and the respective changes in financial position and its cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 29, 2010, on our consideration of the Halifax County Service Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's Discussion and Analysis on pages 2 through 6 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Robinson, Farmer, Cox Associates

Charlottesville, Virginia
November 29, 2010

To the Board of Members Halifax County Service Authority

As management of the Halifax County Service Authority ("HCSA" or "the Authority"), we offer readers of our financial statements this narrative, overview, and analysis of the financial activities of the Authority for the years ended June 30, 2010 and 2009.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. Since the Authority is engaged only in business-type activities, its basic financial statements are comprised of only two components: 1) enterprise fund financial statements and 2) notes to the financial statements.

Enterprise fund financial statements

The enterprise fund financial statements are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to a private-sector business.

The *Statement of Net Assets* presents information on the Authority's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The *Statement of Revenues, Expenses, and Changes in Net Assets* presents information showing how the Authority's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. earned but unused vacation leave).

The basic enterprise fund financial statements can be found in Exhibits 1 - 3 of this report.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. The Notes to the Financial Statements can be found on pages 10 through 20 of this report. Note 5 presents certain required supplementary information concerning the Authority's progress in funding its obligation to provide pension benefits to its employees.

Financial Highlights

- The assets of the Authority exceeded its liabilities at the close of the most recent fiscal year by \$19,666,467 (net assets). Of this amount, \$681,132 (unrestricted net assets) may be used to meet the Authority's ongoing obligations to customers and creditors.

Financial Analysis

Net assets invested in capital assets

The Authority uses capital assets to provide services to its customers; consequently, these assets are not available for future spending. Although the Authority's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Unrestricted net assets

Unrestricted net assets are used by the Authority to finance day-to-day operations without restrictions established by debt covenants or other requirements. Unrestricted cash and investments consist of government securities, bank deposits, and other cash-equivalents.

Changes in Revenues, Expenses & Net Assets

While the Statement of Net Assets reflects the change in the Authority's financial position, the Statement of Revenues, Expenses, and Changes in Net Assets provides insight as to the nature and source of those changes.

The following chart summarizes revenue for FY2010.

FY2010 Revenue by Category

■ HCSA Fees ■ Grant Revenues ■ STAG Grant Reimbursement ■ Locality Contributions ■ Other revenues

Financial Analysis: (Continued)

Operating revenues

Operating revenues consist of water and sewer service charges, penalties and late fees, as well as other operating revenues. The chart below shows revenue by major category.

FY2010 Revenue by Major Category

Financial Analysis: (Continued)

Operating & non-operating expenses

Operating expenses consist of personnel services, contractual services, materials and supplies, utilities, insurance, and other operating expenses that keep the Authority running on a day to day basis. Non-operating expenses consist of interest expense and other costs that are incurred that do not fall under operating expense.

The chart below shows expenses by location.

Capital assets

The Authority's investment in capital assets consist of a broad range of capital assets such as land, buildings, water and sewer lines, water storage facilities, water and wastewater plants, pump stations, machinery, equipment, computers, and vehicles. More information on the Authority's capital assets is presented in Note 3 of the Notes to the Financial Statements.

The following table summarizes the Authority's capital assets, net of accumulated depreciation, and the changes therein for the period ended June 30, 2010.

	<u>June 30,</u> <u>2010</u>	<u>June 30,</u> <u>2009</u>
Capital assets, not being depreciated:		
Construction in progress	\$ 13,408	\$ 424,793
Total capital assets, not being depreciated	<u>\$ 13,408</u>	<u>\$ 424,793</u>
Capital assets, being depreciated:		
Utility plant, lines and accessories	\$ 32,137,907	\$ 31,506,249
Machinery and equipment	597,664	543,926
Total capital assets, being depreciated	<u>\$ 32,735,571</u>	<u>\$ 32,050,175</u>
Less accumulated depreciation for:		
Utility plant, lines and accessories	\$ (4,551,559)	\$ (2,886,967)
Machinery and equipment	(281,015)	(203,457)
Total accumulated depreciation	<u>\$ (4,832,574)</u>	<u>\$ (3,090,424)</u>
Total capital assets, being depreciated, net	<u>\$ 27,902,997</u>	<u>\$ 28,959,751</u>
Capital assets, net	<u>\$ 27,916,405</u>	<u>\$ 29,384,544</u>

Capital Assets and Debt Administration:

Long-Term Debt

Long-term debt is used by the Authority to finance capital projects due to growth in the system, aging equipment and lines, or changes in regulations. Other long-term obligations of the Authority include employee accrued leave. More detailed information on the Authority's long-term liabilities is presented in Note 4 of the Notes to the Financial Statements.

At the end of the current fiscal year, the Authority had obligations of \$9,126,903 in outstanding bonds, notes outstanding and a line of credit.

Requests for Information:

This financial report is designed to meet reporting standards and to provide a general overview of the Authority's financial operations. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance at 134 South Main Street, Halifax, Virginia 24558.

Net cash provided by (used in) operating activities	\$ 1,229,717	\$ 1,432,639

The accompanying notes to financial statements are an integral part of this statement.

HALIFAX COUNTY SERVICE AUTHORITY

Notes to Financial Statements
As of June 30, 2010 and 2009

Note 1 - Summary of Significant Accounting Policies:

A. Formation of the Authority

The Halifax County Service Authority "Authority" was created by the County of Halifax, Virginia on September 6, 1994 for the purpose of providing water and sewer service in Halifax County. The Authority was formed pursuant to the Virginia Water and Waste Water Authorities Act (Chapter 51), Title 15.2 of the 1950 Code of Virginia, as amended and has all of the rights, powers, and duties of an authority under the Act. On June 30, 2007 the County of Halifax and the Towns of South Boston and Halifax, Virginia entered into a comprehensive agreement to integrate the water and sewer infrastructure and operations by joining and participating in the Halifax County Service Authority. The three localities "political subdivisions" recognized the efficiencies of creating a regional approach to the provision of water and wastewater treatment. The comprehensive agreement provides that the Authority has the responsibility for establishing, imposing and collecting fees and charges sufficient to operate the system, pay principal and interest on any debt and satisfy any covenants contained in the financing documents entered into or assumed by the Authority. On January 1, 2008 the Authority commenced operations as a regional Authority.

B. Determination of the Reporting Entity

The Authority's governing body is composed of seven directors. Halifax County, Town of South Boston and Town of Halifax each appointed one, three and two directors, respectively. Furthermore the three localities appointed one at-large director. Therefore, none of the localities appoints a voting majority of directors.

The purposes for which the Authority is being reorganized are to exercise all the powers granted to the Authority to acquire, finance, construct, operate, manage and maintain water, waste water, sewage disposal and storm water control systems and related facilities pursuant to the Virginia Water and Waste Water Authorities Act. No participating locality has access to the resources or surpluses, nor is any participant liable for the Authority's debts or deficits with the exception of the locality compensation agreement. The Authority is perpetual.

Based on the above representations and in accordance with Governmental Accounting Standards Board (GASB) Statement Number 14, the Halifax County Service Authority has been determined to be a jointly governed organization of the County of Halifax, Town of South Boston and Town of Halifax. The Authority is not a component unit of any of the participating localities. There are no component units to be included within the Authority's financial statements.

C. Basis of Accounting

The Halifax County Service Authority operates as an enterprise activity, and its accounts are maintained on the accrual basis of accounting. Under this method, revenues are recognized when earned, and expenses are recorded as liabilities when incurred, without regard to receipt or payment of cash. The Authority accrues revenue for services rendered but not yet billed at the end of the fiscal year. The Authority follows all applicable GASB pronouncements and Financial Accounting Standards Board pronouncements issued before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

HALIFAX COUNTY SERVICE AUTHORITY

Notes to Financial Statements
As of June 30, 2010 and 2009 (Continued)

Note 1 - Summary of Significant Accounting Policies: (Continued)

C. Basis of Accounting: (Continued)

The Authority distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services as well as producing and delivering goods in connection with the Authority's principal ongoing operations. The principal operating revenues of the Authority are charges to customers for sales and services. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Allowance for Doubtful Accounts

Accounts receivable are stated at book value net of the allowance for uncollectible accounts. The allowance for uncollectible accounts amounted to \$0 at June 30, 2010 and 2009.

E. Basic Financial Statements

The Authority's financial statements are prepared in accordance with GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments. As a result, the financial statements include a Management's Discussion and Analysis (MD&A) section, providing an analysis of the Authority's overall financial position and results of operations.

Since the Authority is only engaged in business-type activities, it is required to present only the financial statements required for enterprise funds. For the Authority, the basic financial statements and required supplementary information consist of:

- Management's Discussion and Analysis
- Enterprise fund financial statements
 - Statement of Net Assets
 - Statement of Revenues, Expenses, and Changes in Net Assets
 - Statement of Cash Flows
 - Notes to Financial Statements
- Required Supplementary Information
 - Schedule of Pension Funding Progress for Defined Benefit Pension Plan (not available for the year ending June 30, 2010 - actuarial valuation has not been prepared.)

F. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., pipes, hydrants, pumps, and similar items), are reported in the financial statements. Capital assets are defined by the Authority as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The capital assets donated to the Authority by the organizing localities were valued by a consulting engineer.

HALIFAX COUNTY SERVICE AUTHORITY

Notes to Financial Statements
As of June 30, 2010 and 2009 (Continued)

Note 1 - Summary of Significant Accounting Policies: (Continued)

F. Capital Assets: (Continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during the current fiscal year.

Property, plant, and equipment is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Utility plant, lines and accessories	12 to 39
Vehicles and equipment	5 to 15

G. Interest on Indebtedness

Interest expense recognized from indebtedness used to construct new facilities is capitalized during the period of construction as part of the cost of such facilities. Other interest costs of the Authority are treated as non-operating expenses.

H. Cash and Cash Equivalents

The Authority's cash and cash equivalents consist of demand deposits.

I. Investments

Investments are stated at fair value.

J. Budgets and Budgetary Accounting

A budget is prepared for information, fiscal planning purposes, and to provide the basis for setting user rates. None of the participating entities are required to approve the budget. The budget is adopted as a planning document and is not a legal control on expenses.

K. Inventory

Inventories of material and supplies are recorded at cost, using the first-in, first-out method of valuation. At June 30, 2010 and 2009 inventory amounts were immaterial.

HALIFAX COUNTY SERVICE AUTHORITY

Notes to Financial Statements
As of June 30, 2010 and 2009 (Continued)

Note 1 - Summary of Significant Accounting Policies: (Continued)

L. Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

M. Net Assets

Net assets are the difference between assets and liabilities. Net assets invested in capital assets represent capital assets, reduced by accumulated depreciation and by any outstanding debt related to the acquisition, construction or improvement of those assets. Restricted net assets represent restricted assets reduced by any related outstanding debt. Net assets are reported as restricted when there are limitations imposed on their use through enabling legislation adopted by the Authority or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. The Authority applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

N. Long-Term Obligations

The Authority assumed existing revenue and general obligation bonds of both the County of Halifax and the Towns of South Boston and Halifax upon the formation of the Authority. Additionally, the Authority assumed a note payable to the Town of South Boston for a "negative cash payment." The obligation will be paid to the Town of South Boston in accordance with the comprehensive agreement.

Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds, as applicable. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

O. Compensated Absences

The liability for compensated absences reported in the financial statements consists of unpaid accumulated leave balances. The liability is based on the leave accumulated at June 30. Limited leave may be accumulated until retirement or termination. Accumulated leave is paid at the employee's current wage upon retirement or termination.

Note 2 - Deposits and Investments:

Deposits

Cash of the Authority is maintained in accounts collateralized in accordance with the Virginia Security for Public Deposits Act (a multiple financial institution collateral pool), Section 2.2-4400 et. seq. of the Code of Virginia or covered by federal depository insurance.

Investments

Statutes authorize the Authority to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, banker's acceptances, repurchase agreements and the State Treasurer's Local Government Investment Pool (LGIP).

Note 3 - Capital Assets:

Compensated absences payable	<u>144,014</u>
Total Long-Term Obligations	<u><u>\$ 9,270,917</u></u>

Line of Credit

During fiscal year 2008, the Authority obtained a \$500,000 line of credit for short term operating needs. Interest on the line of credit accrues at a fixed rate of 4% with interest only payments due quarterly and the entire principal due January 2, 2011. The line of credit renews annually on January 2.

Note 5 - Defined Benefit Pension Plans:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)
Identification of Plan: Agent and Cost Sharing Multiple-Employer Defined Benefit Pension Plan
Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent employees of participating employers must participate in the VRS. Benefits vest after five years of service. Employees are eligible for an unreduced retirement benefit at age 65 with 5 years of service or at age 50 with at least 30 years of service if elected by the employer payable monthly for life in an amount equal to 1.70% of their average final compensation (AFC) for each year of credited service. Benefits are actuarially reduced for retirees who retire prior to becoming eligible for full retirement benefits. In addition, retirees qualify for annual cost-of-living adjustment (COLA) beginning in their second year of retirement.

HALIFAX COUNTY SERVICE AUTHORITY

Notes to Financial Statements
As of June 30, 2010 and 2009 (Continued)

Note 5 - Defined Benefit Pension Plans: (Continued)

A. Plan Description (Continued)

The COLA is limited to 5.00% per year. AFC is defined as the highest consecutive 36 months of reported compensation. The VRS also provides death and disability benefits. Title 51.1 of the Code of Virginia (1950), as amended, assigns the authority to establish and amend benefit provisions to the General Assembly of Virginia.

The system issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of that report may be downloaded from their website at <http://www.varetire.org/Pdf/publications/2009-Annual-Report.pdf> or obtained by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the Code of Virginia (1950), as amended, to contribute 5.00% of their annual salary to the VRS. The Authority has elected to assume the 5.00% member contribution. In addition, the Authority is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the Code of Virginia and approved by the VRS Board of Trustees. The Authority’s initial contribution rate is 8.74% of annual covered payroll.

C. Annual Pension Cost

For fiscal year 2010, the Authority’s annual pension cost of \$91,554 (does not include the employee portion in the amount of \$52,376, which was assumed by the Authority) was equal to the Authority’s required and actual contributions.

Halifax County Service Authority			
Fiscal Year Ending	Annual Pension Cost* (APC)	Percentage Of APC Contributed	Net Pension Obligation
June 30, 2010	\$ 91,554	\$ 100%	\$ -
June 30, 2009	92,442	100%	-
June 30, 2008	45,638	100%	-

Includes employer costs only.

The joint Authority commenced operations on January 1, 2008. VRS has not prepared an actuarial valuation; accordingly, information for additional disclosures is not available.

Notes to Financial Statements
As of June 30, 2010 and 2009 (Continued)

Note 6 - Risk Management:

The Authority is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Authority joined together with other local governments in the Commonwealth to form the Virginia Municipal League Self Insurance Risk Pool, a public entity risk pool currently operating as a common risk management and insurance program for member governments. The Authority pays an annual premium to the pool for its workers' compensation, general liability, automobile liability, property, crime and public officials' insurance coverages. The Agreement for Formation of the pool provides that the pool will be self-sustaining through member premiums. Settled claims have not exceeded pool coverage in any of the past three fiscal years.

Note 7 - Contingencies:

Authority officials estimate that no claims, not covered by insurance, would have a material effect on the Authority's financial position.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Directors
Halifax County Service Authority
Halifax, Virginia

We have audited the financial statements of the Halifax County Service Authority for the year ended June 30, 2010, and have issued our report thereon dated November 29, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Authorities, Boards, and Commissions*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Halifax County Service Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on financial statements, but not for the purpose of expressing an opinion on the effectiveness of Halifax County Service Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Halifax County Service Authority's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Halifax County Service Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, Board of Directors, and others within the entity and is not intended to be and should not be used by anyone other than these specified parties.
